MATERIAL HANDLING STUDY - H-NUS Letter RF-HED-011, dated March 7, 1992 SP/DRF-069-92

You have stated to me that the process design for the pondsludge processing has been "fixed". In view of this report, you are directed to resume the material handling study for the pondsludge process train(s) located in the vicinity of the 207 ponds as specified in Paragraph 3.5.2, Phase I, Statement of Work of the contract.

The material handling concerns addressed in the referenced letter should be included in this effort and priority given such that any actions needed by either EG&G or H-NUS can be made supportive of the project schedule.

D. R. Ferrier, Project Manager

Solar Ponds Project
